Art Unit: 2816

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-23, drawn to a temperature sensor, classified in class 327, subclass 512.

II. Claims 24-33, drawn to a method of determining a trip temperature, classified in class 324.

Because these inventions are distinct and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
